CDP-90
Cloud Dot Matrix Printer

Powerful! High-definition printing quality! Fashionable and stylish!

☺ Satisfied ✪ Superior ♡ Intimate

Optional cutter

Ribbon

Features and advantages

Built-in data buffer

With paper source sensing, automatic detection of paper feed

Supports different density bitmaps and downloaded graphics printing

Supports black mark detection and positioning printing

Compatible with ESC/POS print instruction set, printing density optional

Large capacity paper bin

76mm printing width
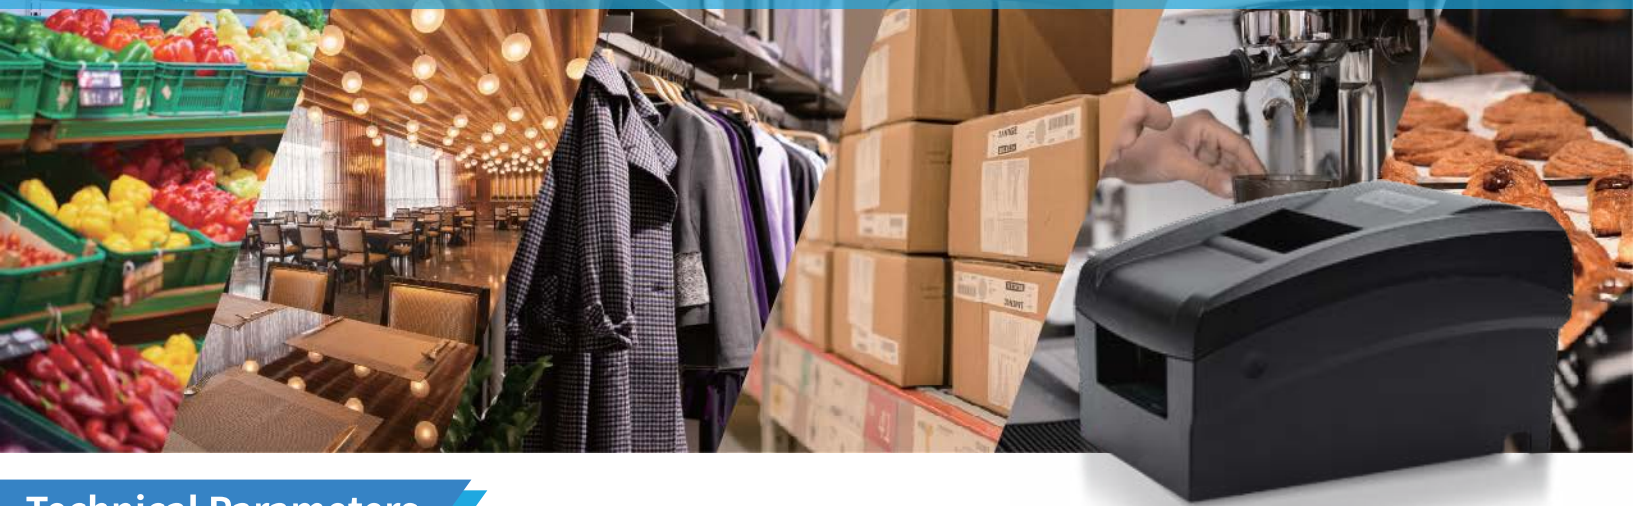

Multi-interfaces

Wear-resistant print head

Technical Parameters

Print method	9-pin impact dot matrix
Print command	ESC/POS
Resolution	203DPI
Print speed	4.5 lines/second
Print width	76mm
Dot density	400 dots/line
Overheat protection	Thermistor
Head position detection	Microswitch
Interfaces	Standard：Serial+USB; Optional：Ethernet
Graphics	Supports different density bitmap printing
Character set	ANK character:Font A:9x9 dot\Font B:7x9 dot\Simplified Chinese/Traditional Chinese:16x16 dot
Character enlargement / Rotation	1 ~8 times enlargement in portrait and landscape orientation, rotating printing, inverted printing
Media type	Single-link paper, Multi-copy paper
Media thickness	Single-link:0.06~0.085mm Multi-copy:0.05~0.08mm，Total thickness≤0.2mm
Paper out	Top paper out
Power	DC 24V/1.5A
Work environment	5~35°C，25~80% RH
Storage environment	-40~55°C，20~93% RH
Mechanism (reliability)	10 million lines
